Subject: *Overview of (VA) Virtual Agrigroculture's business numbers, products and services.*

Dear Sirs,

We like to inform YOU about the kind of services and products we operate.

Services:

(VA) Virtual Agrigroculture S.A.R.L. is a multinational investing company and a crypto mining company, currently operating from Luxembourg and Norway, specialized in mining every coin or token. Our Research & Development department focuses on creating solutions to mine, safely store and offer simple long-term investment options in every future coin or token. Currently (VA) Virtual Agrigroculture offers every coin or token.

Recently the company has enhanced distribution software applications to transfer the virtual assets in fiat currencies like € and \$. Moreover we are specialized in long-term investment options via the Binance crypto exchange and others. Our shareholders earn up to 30% of all profits from products and service revenue. As a company we are looking at growing and becoming the major multinational IT Company across the globe.

Products:

To reach company expansion phase, (VA) Virtual Agrigroculture likes to start fundraisings through crowdfunding or seedfunding, t-shirt sales (*promoting the company's motto, logo, vision and mission*) and through company share sales. (VA) Virtual Agrigroculture offers 30'000'000'000 shares to the public of its total shares of 100'000'000'000. The price per share is 5€. Our sophisticated software, will give us the edge to outperform our competitors sustainable, not only because of the various high quality crypto coins or tokens, we are able to mine but due to our low cost operation policy.

Ownership:

Julio MEDVESCEK.... :Chairman & Founder of (VA) owns 54,25% of the company.

Muzzamil KHAN..... :Vize-Chairman & Co-Founder of (VA) owns 45.75% of the company.

Target group:

(VA) Virtual Agrigroculture sees huge opportunity in its specialized business area for its kind of services and products, which it offers globally. Primarily every person legit to use and purchase virtual assets like crypto currencies on the Internet via smartphone or Pc. Secondly, everyone interested in guaranteed financial rewards like dividends.

Risks:

There is no risk in producing crypto coins or tokens. Sometimes the prices of the products fluctuate, which causes differences in the amount of dividends payouts, but the bullish market tends to outperform and helps us to pay higher dividends long-term.

Fundraising goal:

(VA) Virtual Agrigroculture aims to receive full funding of 10'000'000€ trough company share sales, online fundraising campaigns and t-shirt sales. Moreover (VA) Virtual Agrigroculture searches for early investors and intends to sell 30% of its ownership, 30'000'000'000 shares at 5€/share to early investors. The raised capital through crowdfunding, will help (VA) Virtual Agrigroculture S.A.R.L. to reach its goal to step a major step into monopolism.

Vision:

We as a company see the growing potential and opportunities for the kind of services and products which we offer. The company has a global vision for growth and intends to become market leader in its sector.

We as a company are open for legal investment into the company through bank transfer.

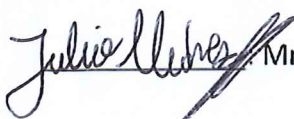

Yours sincerely,

21/03/2022
